RESEARCHERS IN MOTION

EURAXESS Links Japan

EURAXESS is a **European Commission initiative** providing a **complete range of support services to researchers** in order for them to **advance in their research projects and careers**. It features four different branches:

EURAXESS jobs, which is a job and fellowship portal for researchers and their employers, featuring more than 5000 offers on a daily basis, in Europe and in the world (advertise for yours!);

EURAXESS Services, which role is to provide personal assistance and practical advice to relocating or incoming researchers through several hundreds of centres in Europe;

EURAXESS Rights, which informs researchers on their rights and works towards better employment and working conditions for researchers throughout Europe;

EURAXESS Links, serving as liaison between Europe and different hubs (ASEAN, Brazil, China, India, North America and Japan), providing information on funding schemes, cooperation opportunities, S&T developments, jobs and mobility, events.

EURAXESS Links Japan aims to **support European and Japanese researchers** in **finding appropriate funding for their international cooperative research projects** between Europe and Japan, help them build their local networks; and assist them in **advancing their career through mobility at a global scale**. We **address to all researchers**, from PhD candidate level and above, without restriction on field of activity (humanities and social sciences included!). **Our services are 100% free**.

EURAXESS Links Japan fully cooperates with the EU Delegation to Japan, the S&T divisions in each of the Member States and Associated Countries embassies as well the various liaison offices (national funding agencies, research institutes, etc.) in order to maximise synergies.

The EURAXESS Links Japan Monthly Newsletter

Our newsletter presents a **monthly digest of S&T news and developments, Funding, grants and fellowships critical information, Jobs and mobility opportunities** as well as events of interest for researchers, administrators and stakeholders interested in Europe - Japan cooperation.

Each month, we provide you with a **tailored list of EU, Member States** and Associated Countries (40 countries!), and **Japanese programmes with upcoming deadlines**. The list is tailored to **feature only programmes enabling either Japanese participation** (for European programmes) or European participation (for Japanese programmes), as well as **mobility and fellowship offers both ways**.

Each edition features around 50 different programmes!

Subscribe now for free using the links or QR codes on the front page!

Please keep in mind we also **hold between 4 and 5 events in Japan per year**, meant as **networking and information platforms** for Europe-Japan cooperation in research.

We can also **help you organise information days on cooperation with Europe in research** at your university or research institute. Contact us if you're interested!
