

# Power of Reward

## Impacts on child behavior

2024/3/23 (Sat) 14:00 ~ 16:00

16:00~17:00 Tea Time Conversations 

Parents & professionals from local communities will share their experiences in supporting children.

Combine them with **research** at OIST to generate new ideas!

### Location

OIST Auditorium or Zoom (English Translation)

### Registration

# What are we going to talk about?

OIST Children's  
Research Center

## Research on Reward:

People respond differently to praise and other rewarding experiences. We study how these experiences affect the **brain and behavior** of those with **ADHD**. Understand the power of reward to help **better support children!**

## Panel Discussion

hmm... praise...  
Does that really work?  
My child never listens...  
so should I praise ?!

I use these  
strategies when  
supporting multiple  
kids at once!

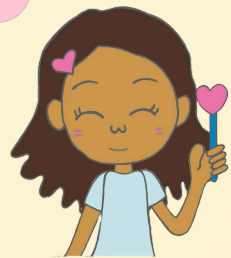

I can get my  
child  
motivated  
when I do ....!

I wonder  
what other people  
do to manage kids'  
behaviors?

We welcome  
your questions  
and ideas too!

## Community Participants

Parents, teachers, and professionals who support children everyday in Okinawa and Miyazaki will share their experiences. An anime producer will also join us with ideas on clear communication!
