

# GREENER MOBILITY MID-TERM WORKSHOP: PROGRESS AND FEEDBACK

As a continuation of the Greener Mobility Ideathon held in December last year, this mid-term workshop serves as a platform to share interim results and engage stakeholders, including local citizens, in shaping the next phase of development. The SO-Smart project aims to explore practical and community-driven solutions for sustainable transportation, combining digital tools, behavioral insights, and collaborative design.

**TUESDAY, 11 NOVEMBER 2025**  
13:00 to 16:15 OIST  
Seminar Room L4E48

**Register Now!**  
Deadline: 3 November 2025
