

For Seminar room and Lab during entire course

- Make sure everyone always wears masks indoors.
- Make sure everyone washes their hands before entering the rooms.
- Make sure everyone disinfect their hands when entering or leaving the venue.
- Maintain a safe distance when entering and leaving the venue to avoid crowding and consider an event program that allows separating the entrances or dividing the entering time.
- Open doorways and windows and always ventilate, or open windows once per hour for ventilation.
- Disinfect shared items such as microphones, remote-control of projector, touch panels for lighting and video conferencing, air conditioner's control panel etc. at venue.
- Check health condition before entering seminar room by measuring body temperature
- Pre-registration participants only

For Lunch time

- Push 30-40 minutes back from the OIST lunch break(12:00~) to avoid crowds.

In General

- Do not lower the guard of basic COVID-19 preventive measures during the coffee break or smoking.
- Avoid social gathering with eating and drinks, especially if it lasts long hours.
- Avoid having conversation within 2 meters without wearing masks, even lunch time: during eating no need to wear a mask, but finished eating, need to wear a mask. If a clear board/barrier whose height is above your head is installed at restaurant, your droplet will not reach to your counterparts sitting face-to-face, so you do not need to wear a mask.
- Wear a mask in a car with other people or public transportation
