OIST Winter Course
“Evolution of Complex Systems”

The aim of the Winter Course is to provide opportunities for young researchers with biological backgrounds to meet each other and learn the latest advances in the field of evolutionary developmental biology.
The course is a combination of lectures and workshop.
We invite about 20 graduate students and postgraduate researchers.
OIST will provide lodging and meals and support travel.

Date: December 8–12, 2014
Venue: OIST Seaside House, Okinawa
