About Us

One Young World is the world's biggest forum for next-generation leaders. One Young World is dedicated to identifying, supporting, and connecting the world's most influential next-generation leaders to work together to build and create a better world. The annual summit brings together more than 2,000 next-generation leaders from around the world to address the most pressing issues facing the world. OYWJ is the Japanese chapter of One Young World.

OIST was established in 2011 to contribute to science and technology worldwide, attract leading researchers from Japan and around the world to conduct high-quality research, advance the development of a world-class research hub, and nucleate a knowledge cluster that will catalyze technology transfer and industrial innovation in Okinawa. OIST offers a 5-year, interdisciplinary PhD program in Science and Engineering. There is with no departments, and courses are not restricted to a single discipline.
