

(File of Details of Application)

- 2. Research status up to date** (Describe the status specifically; chart/diagram may be included. Change/addition of the form is not allowed. (The same shall apply hereafter))
- (1) Describe the background to past researches, issues, solution measures, purposes of the researches, methods of the researches, characteristics, and unique points, by citing important documents in the relevant field.
 - (2) Organize the applicant's research progress so far and obtained results, and describe them in association with above (1).
If past research results were presented as papers or at academic conferences, etc., please clarify the part which the applicant was in charge, and describe its contents.

Registered name of applicant _____

Research Status up to Date (continued)

3. Future research plans

(1) Background to research

Describe the background to the future research plan, issues, points to be solved and how the applicant has come up with the idea, etc. by citing references.

Registered name of applicant

(2) Purpose and contents of research (Describe specifically; chart/diagram may be included)

- (1) State the purpose, method, and contents of the research.
- (2) Specifically describe what type of plan it is, and what will be clarified and to what extent will it be pursued.
- (3) Within research activities of your research unit/group, please clarify parts that you will be responsible for.
- (4) When you have plan to engage in research in a different research institution (including overseas research institution) during the period of the research plan, please describe it.

(3) Characteristics and unique points of research

Please describe about the following items.

- (1) If there is any prior researches, indicate characteristics, viewpoint, and unique points of the research in comparison with them.
- (2) Position and significance of the research among relevant researches inside and outside of Japan.
- (3) Expected impact and future prospects when the research is completed.

Registered name of applicant

((3) Characteristics and unique points of research)

(4) Research plan

Please describe the annual plans from the application time.

Registered name of applicant _____

(Research plan)

(5) Protection of human rights and compliance with laws and regulations

Describe the measures and actions that you will take if your research involves procedure based on the laws and regulations such as research requiring the consent and the cooperation of the other party, research requiring consideration for the handling of personal information, and research requiring efforts regarding bioethics and safety measures when implementing the research plan. This applies to surveys, research, and experiments which require an approval procedure in an information committee and ethics committee, etc. inside and outside the research institution, **for example questionnaire surveys and interview surveys in which personal information is involved, surveys of cultural heritages inside and outside of Japan, the use of provided samples, potentially invasive study, analysis study of human genome, recombinant DNA experiments, experiments on animals, etc.** Status of the procedure shall be described specifically.

Please indicate where this is not applicable.

Registered name of applicant _____

4. Ability of research accomplishments Describe your ability that carries out your research based on your previous research activities by citing main references appropriately that support feasibility of your research project. Do not just provide an exhaustive list. Also please provide sufficient information to identify the relevant document. Details are shown in following (1) ~ (6).

(1) Thesis published in a academic journals and books (Including a bulletin and collection of papers. Mention it is peer reviewed or not. For peer-reviewed cases, provide information that has been decided to be included in a journal.)

Authors, titles, names of journals, publishing offices, volumes, pp. starting page-ending page, and years of publications shall be stated in this order.

(2) Comment or review articles on academic journals or commercial magazines

(3) Presentation at international conferences (State whether it was an oral presentation or poster, and whether it was peer reviewed or not.)

Authors, titles, the names of academic conferences, numbers of papers, locations, month and year shall be stated. (Those scheduled to be presented should be excluded. However, those have been accepted for presentation may be entered.)

(4) Presentation at a domestic academic conference, symposium, etc.

Indicate in the same manner as (3).

(5) Patent, etc. (Indicate whether a patent is pending, laid open or granted. If it is not possible to describe the details of a patent due to its pending status, the outline would suffice.)

(6) Others (Prize-winning record, etc.)

Registered name of applicant

5. Motivation for becoming a researcher, intended image of a researcher in the future and selling points

The Japan Society for the Promotion of Science’s system of Research Fellowships for Young Scientists aims at fostering and securing creative researchers who will assume important roles in future scientific research activities in Japan. In view of this aim, please describe your motivation for becoming a researcher, intended image of a researcher in the future and your selling points.
