Tap Yes to shut down.

Tap No to cancel.

 / Displays

■ Switch the outputting video on Projector / Output

Choose the displaying each device.

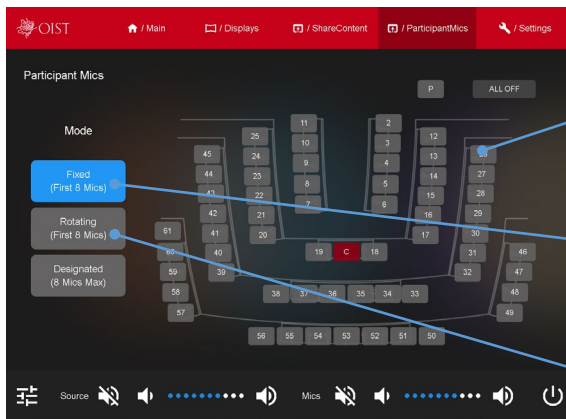

Tap  next to the source you wish to display.
(highlighted screen source will change as the display changes)

 / ShareContent

■ Switching shared content source during video conference using Cisco

Select the device to share the screen with participants.

 / ParticipantMics

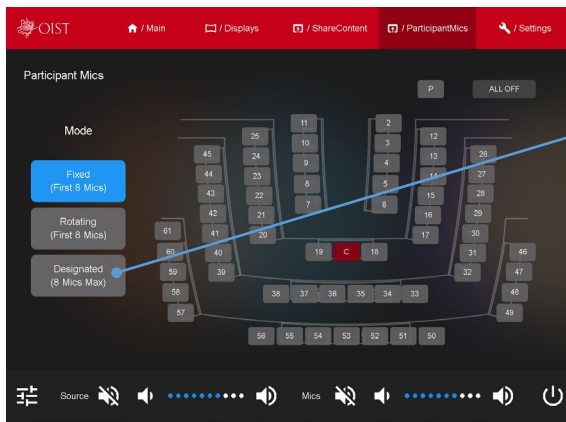

■ Switching participants microphones

Selecting the button on any seat allows the participant's microphone to be turned On.

<Mode>

Fixed:
The first 8 mics on are available.
When any one of the 8 mics is turned off, the next mic can be used.

Rotating:
When the 9th mic is turned on, the first mic is turned off and the right to speak rotates.

 / ParticipantMics

■ Switching participants microphones

<Mode>

Designated:

Used when the right to speak needs to be authorized by the chair. Mic will blink on press and is activated after chair approval using the touch panel.

 / Settings

■ Auto Tracking Camera

When this function is enabled, the video conference microphones detect the speaker and automatically switch to the preset camera angle.

***While this function is On, you cannot manually select the camera.**

■ How to switch sending the language

Switch the audio sent to the Cisco video conference participants.

Switch the audio sending to the VC PC1/VC PC2.

Controls the power of the displays and projector.
