

October 2, 2015
20151002-OIST-FA-001

Dear Sir/Madam,

I hereby certify that my organization is a not-for-profit and officially accredited as a Graduate University by the Ministry of Education, Culture, Sports, Science and Technology, Japan.

The Okinawa Institute of Science and Technology (OIST) is a new graduate university established in November 2011 in Onna-son, Okinawa. Our mission is to conduct internationally outstanding education and research in science and technology, contribute to the sustainable development of Okinawa, and promote and sustain the advancement of science and technology in Japan and throughout the world.

OIST has been established as a not-for-profit School Corporation (OIST SC), and receives subsidies from the Japanese government to operate the Graduate University. In order to expand and consolidate this new center of world-class research and education as well as contribution to the sustainable development of Okinawa, the Japanese government provides subsidies for all OIST SC operation expenses every fiscal year which shares 98% of our revenue. Please check our official website (<https://groups.oist.jp/acd/information-disclosure>) for further detail.

Sincerely yours,

Kenta Ogawa
Manager of Procurement & Supplies Section
Financial Management Division
